Hi Angie, would you mind contacting Eddie directly? Should they have follow up questions would prefer they be able to contact you directly rather than going through us at HQ! Thanks!

Dear Eddie Chen:

Thank you for your inquiry regarding TRW Microwave, AMD, and Monolithic Memories.

The known areas of contamination for these Superfund sites do not extend to the **Ex. 6 Personal Privacy (PP)** Sunnyvale, CA 94085). There is no indication of potential harmful impacts to people living in the apartments from vapor intrusion or soil or groundwater contamination from TRW Microwave, AMD 901/902, or Monolithic Memories.

You can learn more about these sites here:

- TRW Microwave:

Hi Angie, Michael,

We received the following inquiry into our general Superfund contact us box about the cluster of sites in Sunnydale, CA. Could you all follow up with Eddie about his concerns? Thanks!

**Subject:** Impact of superfund sites to nearby apartments (Stewart Village apartment)  
Hi,

I am a new resident of **Ex. 6 Personal Privacy (PP)** Sunnyvale, CA 94085), and I noticed that this apartment has 4 nearby active superfund sites (AMD, TRW, MONOLITHIC MEMORIES). And the TRW site is one of my most concerns. May I know if any soil, groundwater, and vapor intrusion tests have been done for these apartments or their public area? If so may I know the results?

Thanks,

**Ex. 6 Personal Privacy (PP)**
